

## **SAA Special Olympics Healthy Hearing Chapter Participation Grants**

### **Application Information**

In 2010, the Student Academy of Audiology (SAA) officially announced its relationship with the Special Olympics Healthy Hearing (SOHH) program as a national service project. The SAA is encouraging university chapter participation in SOHH programs throughout the country to support the goals of 1) increasing the number of student volunteers involved with hearing screenings, and 2) improving the audiologic follow-up of athletes after the games.

The American Academy of Audiology Foundation (AAAF) SAA Chapter Participation Grants program provides funding that enables students from SAA Chapters to serve as volunteers at SOHH events at the local, regional, and state levels. These grants supplement chapter fundraising activities and partially cover costs of travel and supplies.

For 2011 only, **the chapter application deadline for support is June 15, 2011** to support volunteer participation at 2011 SOHH events. Funding may be requested for events between April 1, 2011 (retroactive) and March 31, 2012.

**(Note:** Beginning in 2012, the grant year will run from April 1 through March 31. Chapter applications will be accepted between October 1, 2011 and February 1, 2012 for support of Chapter SOHH events beginning April 1, 2012. Award notification will be made by March 15, 2012.)

Each chapter application packet must include:

1. Complete application form (attached)
2. Completed SOHH budget form (attached)
3. Description (including date and location) of fundraising events planned by chapter and anticipated revenue from chapter events

The completed application packet for support in 2011 must be sent electronically to Samantha Gustafson at [samantha.gustafson@asu.edu](mailto:samantha.gustafson@asu.edu) by June 15, 2011.

For additional information, call the AAAF office at 703.226.1049.
